

# EVERGREEN FIRE DISTRICT

## District Statistics:

Area = 22.7 sq. miles

Approximate Population\* = 8,369

\* Population estimates were calculated using Census data from the year 2000. Because this data is given for Block Groups which do not necessarily match fire district boundaries, a percentage of each Block Group Population count (based on a calculation of GIS address points) was used. These counts should be used with caution as they most certainly do not reflect the actual population count.
